

27th January 2011 nr.2.2-3/

Dear Sir or Madam,

Thank you for your letter, in which you expressed your support to the application of the Estonian Association of Bird Lovers to introduce into Estonian legislation hunting with falcons.

Current framework of the changing of the composition of the Riigikogu will culminate with parliamentary elections on March 6, 2011. The new composition will hopefully take their office in April.

I would like to inform you also that the new draft of the hunting act has been prepared at the Ministry of the Environment.

After it has been submitted into proceedings of the Riigikogu, the issue of possibility of hunting with falcons will also be deliberated.

Kind regards,

Mart Jüssi
Chairman
Environment Committee of the Riigikogu
